THE GLEN WOOD is universally recognized as one of the best and most attractive hotels in the State. It occupies an entire block of two and one-half scree, centrally located, with pleasant surroundings in the way of fruit and ornamental trees, flowers and shrubbery. Around the building, on both floors, are broad balconies, forming fine promenades, aggregating a quarter of a mile in length, part of which are encased with glass and trellised with vines. The sunlight reaches every room, and they are all easy of access from broad halls and balcony. Baths and closets, electric bells, and all the modern improvements to be found in a first-class hotel. Open grates and stoves afford opportunity for fires when desired. Parlors, reading room, office and dining room all on first floor, spacious, sunny and convenient.

Water Analysis.

San Francisco, September 18, 1882, For Mr. Victor Beaudry, Los Angeles: I have carefully analyzed the sample of water—marked as under—and find the following to be the proportions in every 100 parts: Solid residue, 29.16 grains per United States vallon.

Solin Pestua, 239 grains per United States gallon. Chlorine, 2.39 grains per United States gallon. Ammonia (free and combined), .085 milligram per litre. Albuminoid ammonia, .12 milligram per litre. The water does not indicate the presence of any injurious ingredient in abnormal quantities, and is a goon quality of water for dietetic purposes. It is free from any seemage contamination. Respectfully submitted, THOMAS PRICE, M. D. NOTICE.

I take pleasure to lay before the public the bove certificate of analysis of the water from BEAUDRY WATER WORKS nowing, as I do, that good p water is most sential to the health of the onsumer.

ence of the TIMES.] SAN BUENAVENTURA, April 17 .- 1 write you this on Tuesday, it leaves here on Wednesday morning, reaches Newhall at noon Wednesday, lays there over night and reaches Los Angeles Thursday morning-and so is published in Friday's TIMES; all of which goes to show that a little "expediting" would not hurt the mail service between Los Angeles and San Buenaventura. The two places are exactly seventy miles apart. From here the distance to San Francisco, by rail, is 502 miles. Yet Eggs our San Francisco newspapers reach us as soon as our Los Angeles newspapers -and that with a five hours' delay at Newhall. This is not as it should be. There is either something radically wrong in our postal system-or in the method of using it. It is absurd that it should take as long to carry mail 70 miles as to carry it 502 miles. Let this

HIGH LICENSE. The "high liquor license" wave has reached Ventura county, and is sweeping all before it. The two county papers have declared emphatically in favor of it; the Board of Supervisors are to be presented with a formidable petition at their next meeting; the utmost enthusiasm prevails, and, altogether, it seems probable that at the next meeting of the Board the license will be fixed at a figure that will close forever the low dens and groggries. Of course there is opposition, but it comes prin cipally from interested parties—and, I am sorry to say, from Good Templars.

This latter opposition is the more to be regretted, as the movement seems likely to meet with more general favor than any Good Templar move has so far done, and "half a loaf is better than no

matter be agitated and remedied.

TEACHERS' INSTITUTE. Ventura County Teachers' Institute is in session here this week, and, as a consequence, our town is supercharged with wisdom. This fact may partially short wool, ea long " ea 1 shearlings..... explain the dryness of this epistle, for I assure you the wearing of conversational stilts is terribly fatiguing. The teachers are having an enjoyable time in their own way, though, and he would indeed be lost to all sense of shame who would begrudge to the drudges of society their hard-earned bit of recreation and transitory glory. Let them speak, sing, lecture and be merry, for they have indeed earned the right. Among the big bugs shedding their light in our village on this occasion are W. T. Health!

Health Restored and Life Prolonged to Suffering Humanity, by the Most Wonderful Curative Agents Ever Discovered!

CONSULTATION FREE.

INVITE THE SICK, no matter what their diseases may be, to call and investigate for themselves before abandoning all hope, for it will cost you nothing. I give no encouragement unless there is a fair prospect of making a cure. I will endeavor to be candid in my opinion, and reasonable in my charges I claim not to cure everybody, but to cure all that can be cured. I am formerly from New York city, and a graduate of one of the best medical colleges in the United States, and a most thorough Electrician, and have had many years successful practice in the treatment of both acute and chronic diseases. To remove all doubts and convince my patients that I claim nothing but what I am, I refer to my diploma and the numerous recommendations in my possession, which will always be ready for inspection at my office.

I have located permanently in this city, and all I ask is that you give me a fair, unbiased trial, by which I hope to merit your confidence and give entire satisfaction to all suffering humanity. My reputation has been acquired by caudid, honest dealing, and years of successful practice. I know the cause and the remedy needed, not by guess-work, but by years of experience in the treatment of various diseases.

I HAVE NO ONE CURE-ALL!

Nor do I make a hobby of any one mode of treatment. I use Electricity or Medicines, or both, as cases may require. I believe in proving all things and holding fast to that which is good, I am aware that it is a positive fact that the majority of diseases are caused by impure blood, and the only way to promote a cure is to remove the poison and build up the system by requiring the obstructed excretory organs to do their proper duty. I find the cause, remove it, and nature, assisted by medicinal remedies properly applied, will promote a cure without fail.

TO THE LADIES! To the ladies I would say: You, whose sufferings have become intolerable, and who have flered a thousand deaths from those diseases so common to your sex, give me a call, for

I Can Cure You Without Fail!. and make your lives each again worth living for. And all consultations will be strictly private and confidential.

YOUNG MEN!

To those young then who are suffering from year to year, and whose vital powers have be-ome impaired, and nervous system unstrung and broken down, and are suffering all the hor-ors from the effects of youthful follies. Come and See Me!

I have a sure preventative of premature decay and early death. To those who from indiscretions have contracted private diseases, and are desirous of being cured, come without fail, for I can guarantee you a speedy cure. I treat with success all diseases of the

While small favors are thankfully received, yet the reduction is too small to be of any real benefit. The present rate is a tax of about \$1.00 per box, and the fruit will not allow a margin of profit to the shipper. Dealers say that the fruit will not pay over seventy-five cents a box per car, and until that rate, or one approximating it, is established, there can be little profit in the trade. Porter Bros., large commission men of Chicago, have sent word to Messrs. Woodhead & Gay not to ship them any more oranges until further orders, as they cannot handle them at present rates. They are quoted in job lots at \$2.50 per box, and if \$1.00 of that is paid for freight it doesn't require much calculation to show that there can be no profit in the transaction.

Mr. Proctor contemplates going Washington Territory soon. Mr. C. Coltrin has the finest artesian well in the vicinity -flows about sixteen who have just finished another well fo Mr. Malcolm has sold his lots and barn

to a gentleman of means from abroad, who contemplates erecting two tenement houses-a good enterprise The wind of the 12th and 13th insts. the most violent ever known in this vi-cinity, proved very destructive to barns, windmills and trees, thousands of the latter, especially of the willow variety, being tierally torn in pieces.

The primary room of the public school building was driven about two and one-half feet from the foundation and fell to the ground considerably damaged, but

nool continues in it. A large tree fell across the house of Mr O'Brien, breaking the roof badly.

A Sensible Miner.

Mr. R. B. Johnson, lately of Calico, is putting up a fine lodging-house on New High street, which will be completed in about two months. Mr. Johnson was one of the fortunate locators in Calico, as he discovered the Sam Houston mine, from which he took out \$24,700 in a short time, and afterwards bonded it for \$10,000, \$1200 being cash down. Mr. Johnson has wisely determined to invest a portion of his capital in Los Angeles real estate.

Chinese Knocked Off.

Some Chinamen who were employed on a public highway a few miles east of town and are not very well versed with even the conventional pigeon English, on hearing the whistle of the local Santa Anstrain, insisted that it must be 6 F. M., and arguments and entreaties of the contrace.
